

Fishing with guide in the mountains of Ljungdalen 2018

Welcome to the county of Härjedalen and the lovely Ljungdalsfjällen and its wonderful mountain fishing.

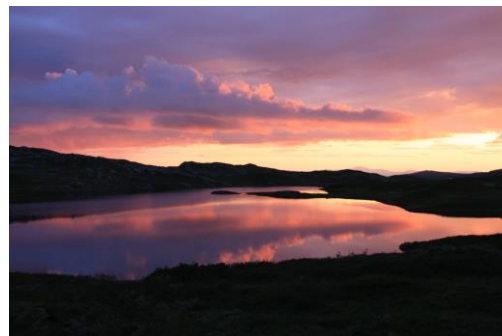

We have trout and grayling; there is also rainbow trout in the water among Ljungdalen. We have access to both lakes and rivers for fishing.

To lure the big fish we recommend that you take help from a guide. The guide takes you to the best places where the kings and queens of the rivers lurk ... Our guide is also available to help you with other types of services, help with packing, make lunch on the mountain, etc.

We can offer a package with accommodations with access to our beautiful mountain cabin that can accommodate up to six people or living in our Tentipi for 5-7 people. You can select packages with a guide one day or several days during your stay. Your guide has many years of fishing experience, good local knowledge and a cheerful and positive attitude, which can come handy in the ever-changing mountain environment and its equally changing weather.

The optimistic fishing enthusiast who wants to experience their dream fishing should visit Ljungdalsfjällen. The risk of failure is minimal but when it comes to fishing the optimist can be just as wrong as the pessimist, the difference is that the optimist has a lot more fun.

Welcome to a fishing adventure where the fishing brings you harmony together with the majestic nature.
