

Beaverhunting in Jämtland - enjoy the light nights

We organize enjoyable beaver hunting packages on good hunting grounds in Jämtland.

The best season for beaver hunting in Midsweden is at springtime (from April to the 15 th of May)

Choose from full or half board. The packages include hunting license, guide and accommodation. You must have a guide in order to hunt.

You hunt at 1400 - 4000 hectares and your lodging is right at the ground or close.

DAY 1

Your guide will meet you at the airport in Östersund and bring you, by car to your accommodation.

We will eat dinner together and go through the days of hunting. If there is time, we go for a short hunt the first evening.

DAY 2

You make your own breakfast and lunch in the accomendation. For the afternoon and the evenings hunt, the guide will bring snacks to the forest.

Your guide will meet you at your accommodation in the afternoon and take you out hunting. You will then sneak carefully by the small creeks to look for beaver.

When you find an active area, your guide will assist you in finding a good stand and sit for some hours and wait. Weather, daylight and hunting success will determine how long you hunt during the night- and of course, how much patience you got...

You will eat dinner in the forest or in the cottage in the evening, prepared by your guide.

DAY 3-4

Same as day 2. After completing the last day's hunting you return to your accommodation and depart for home.

Before hunting there are many possibility's to do and see other things around the area; fishing, wildwatching for birds, moose and maybe see some tracks from bears...

Dates: April- 15 of May 2020

Price:

1. Hunting package with accommodation and guide from 700 Euro//day (2 pers)

2. Hunting package with guide, accommodation and fullboard from 890 Euro/day (2 pers)

Price including 2 beavers/day
